- Virtual Rounding
- Conference Room on Wheels

Allows Mounting of Heavier Monitors & Computers

Dozens of Peripheral Attachment Options

Larger Pole for Increased Concealed Cable Management

Height Adjustable Utility Box

Custom Branding Available

Tip Resistant Base

Whisper Quiet Locking Wheels

Monitors, Peripherals, & Mounting Brackets Sold Separately

Product No. T2900

SKU: T2900

Wide Offset X-Series Pole

Allows mounting of larger monitors and other hardware.

Ergonomic Handle & Cord Wrap

An ergonomic handle with slender design uniquely placed for easy push-and-position.

Customization

Customize your cart with Branding Options and 40+ Accessories.

Base & Casters

4-Wheel base balances the need for stability with a small footprint. Complete with premium, quiet, non-mark and locking casters, this cart is ready to roll or stay in a locked position as you need.

Best-in-Class, Durable Materials

Anodized Aluminum, Powder-Coated Aluminum, Cyclopol Plastic, fully wipeable and approved in Operating Rooms.

Concealed Cable Management

Cable management channel allows for discreet and uninterrupted charging.

Large utility box can house power cable receptacles or other power components. Offset Adapter allows cables to be routed from front to back of pole.

Quality & Services

5 Year Limited-Warranty, ISO 9001:2015 Certified, Tip Resistant as per IEC 60601, and Remote Expert Support.
